WORLD OF FINANCE IN THE

NEW YORK STOCKS.

NEW YORK STOCKS.

New York, Feb. 18.—Affairs at the stock exchange were not only characterized by extreme dullness, the sales footing only 118,031 shares, but an unsettled feeling prevailed throughout the session. It goes almost without saying that the dealings were almost entirely professional and even these operations refused to go into new ventures on an extensive scale. In the main, the industrials were firmer, while the ratiroad list gradually dropped to a lower level. There was a steady dribbling of the grangers, although nothing new developed on which a selling movement could be predicted. The bears revamped the old story about a probable reduction in the Burlington dividend, but, as a matter of fact, nothing definite is known in regard to the matter, as the directors refuse to commit themselves and say that they themselves are ignorant as to the action to be taken. Nevertheless the stock declined about a point and closed at the lowest and St. Paul and Rock Island ruled lower in sympathy. More aggressiveness was shown in the case of coalers, both bituminous and anthracite.

case of coalers, both bituminous and anthracite.

In addition to the unsatisfactory condition of these industries the bituminous stocks were unfavorably affected by the further sharp decline in Hocking Valley bonds and reports that no provision has yet been made for the interest on interest due March 1st. It is said a plan is being devised whereby the coupons will be purchased by the bankers identified with the property. Hocking Valley declined 148 and the preferred was offered at 25, the last reported sale having been at 40. Wheeling and Lake Eric fell 38 to 142 and preferred 248 to 742, the lowest figures yet touched. Among the anthracites Jersey Central was the feature, declined two points to 9634 on regular, and 96 seller sixty. There was a raily of nearly one per cent. In the late dealings, The gold stocks continued feverish and Manhattan fluctuated between 88 and 8634 with final sales at 87. Rumors are still rife that a reduction [in the dividend rate is contemplated owing partly to prospective expenditures for improvements and also because of the floating debt. Missouri Pacific declined 78 to 1944 and rallied to 1978. Sugar rose to 11442 on account [of announcement that certain grades refined had advanced and was afterwards lost. The foreigners were moderate sellers of international stocks.

The market closed weak. Net c show losses of 11-4 to 24-8 per cer coal stocks leading. American and Leather preferred, however, 1-4a-8 per cent.

Billion, and that every honorable and legitimate means will be jused to secure his nomination. They believe Major Tyler the peer of any man spoken of for that office, and that the momination is due him because of his fidelity and unwavering devotion to the Democratic party under all circumstances. At this time he would make the kind of governor Virginia wants, a level headed, practical business man. We could point to what he has done and what has been said of him by those who have been associated with him in responsible positions, but these things are known by all who have kept posted in regard to public matters. His services in building the State's public institutions, in settling her boundary lines, as a member of the famous State Debt Commission, as lieutenant governor, in short, his long and efficient labors in behalf of the public interest, all have made him intimately acquainted with Virginia's affairs, and such unselfish services entitle him to grateful recognition. The Democratic ratio provides and seriously injuring ten others.

The Democratic party should honor those who never fail to exhibit self-sacrificing devotion to its interests, and cheerful acquiescence in the decisions of its conventions. Who has been more loyal and true than Hoge Tyler. He has labored as faithfully and zealously for the success of the party when turned down as when honored. It is said that after the noralization at the last convention the sentiment of nearly all the delegates was "Tyler next time," and Col. O'Ferrall's friends especially were so well pleased with his course that many of them piedged him their support

were so well pleased with his course that namy of them piedged him their support for '97, and repeatedly since then these pledges have been renewed. The sentiment of the people is with him. The times are ripe for his nomination. 'Other distinguished gentlemen who have the laudable ambition to fill this exalted position can well afford to abide their time. Especially when the agricultural classes of the State feel the lack of public sympathy, it would be ungenerous ont to recognize this great class of our people who constitute the bone and sinew of the Democratic party. It would be unfortunate to turn down such a man as Hoge Tyler, if from his vantage ground, Hoge Tyler, if from his vantage ground, extended acquaintance, long party service, high character, intimate acquaintance with public needs and magnetic personality, Loge Tyler cannot be nominated, then the door of the executive manision of the State results. ling exchange steady with actuar business in bankers' bills at 4.85a4.85.1-4 for sixty days and 4.87 for demand. Yesterday in Salem resembled the boom days of 1889-90 it being the occasion of the sale of the stock and fixtures of the southern Carriage Works. At an early bour carriages and vehicles of every description lined the streets, and everybody seemed astir. The city was filled with strangers from all over the State. There were probably 1,200 people at the sale, the two wheelers, carriages and cart's bringing very fair anction prices.
